

FELLOWSHIP

A CHALLENGING OPPORTUNITY FOR RESEARCH ON SUSTAINABLE FINANCE

FINANCE FOR IMPACT is a public policy firm exclusively focused on sustainable finance and social impact.

Our objective is to improve financial access and inclusion, advise on financial market reforms, strengthen the quality of financial governance and promote the integration of sustainability concerns into mainstream financial practice. This conviction guides everything we do as an organization and the choices we make.

Finance for Impact conducted assignments in over 60 countries on behalf of leading development banks, international financial institutions, bilateral agencies, governments...

OUR FELLOWSHIP PROGRAM

Finance for Impact is seeking to create a community of enlightened leaders and entrepreneurs interested in transforming and charting the course of the global finance industry in the years to come. For this purpose, we are looking for distinguished young professionals from who come to **Finance for Impact** to address important issues at the interface of the public and private sectors. Our fellows will typically help undertaking independent research projects, strengthening the connection between theory and practice on the integration of financial concerns in markets, offering insights into the nature of social problems and their most practical solutions. We are looking for high-caliber fellows with a blend of skills and experience who are exceptional problem-solvers, capable of rigorous analysis, at ease working across cultures.

As part of this **Fellowship Program**, our affiliates will have the opportunity to work on exciting and challenging questions faced by today's society and economy, mainly but not exclusively, in the following themes:

1. Blue Economy
2. Digital Economy & Technology
3. Evaluation
4. Green Economy Transition
5. Financial Markets: Risks and reforms
6. Governance
7. Inclusion & Diversity
8. Regional Development & Cohesion
9. Risk Analysis & Damage Assessment
10. Trade & Competitiveness

As part of this community, fellows will be able to:

- Research into our mainstream topics, e.g. environmental and social standards, governance and transitional justice, business ethics, access to finance in developing countries, or propose your own topics of interest;
- Write articles and news items, conduct interviews with practitioners under the direction of our experts and consultants;
- Collaborate with our experts and consultants on specific assignments, giving you insights and ideas for advancing innovative solutions in the marketplace.
